

Peak 10 + ViaWest is a powerful combination that helps organizations optimize their journey of IT transformation while simultaneously balancing cost, scalability and security. Our 4,200+ customers trust us to deliver hybrid IT infrastructure solutions spanning colocation, interconnection and cloud, supported by managed and professional services. This diverse and comprehensive portfolio of solutions helps our customers enhance performance, manage risk and increase competitiveness as their industry evolves.

## Geographic Reach and Capabilities

Top Industries			Assets			
Healthcare	Manufacturing	Technology	Colocation	Connectivity	Cloud	Managed IT
Financial	Retail	Logistics	40 Data Centers	10,000 Cross Connects	13 Nodes	200 Employee Certifications

Peak 10 + ViaWest's robust suite of assets span 20 domestic and international markets and comprises 40 highly-redundant data centers, 13 cloud nodes and more than 10,000 cross connects. These capabilities, coupled with over 1,000 dedicated employees, underlie the steadfast reliability of our solutions and our 100% uptime commitment.

## As a Peak 10 + ViaWest Customer You Can Expect:

- Deeply ingrained "Customer-First" culture
- True national platform with international presence
- Comprehensive and robust suite of outsourced IT solutions
- Scale to provide an industry leading service delivery platform
- Enhanced cloud and connectivity solutions

## Industry-Leading NPS

Customer success lies at the core of everything we do. Our industry-leading Net Promoter Score reflects a strong partnership with our customers and a commitment to helping them meet their IT challenges today and into the future.

## Industry and Regulatory Compliance Solutions and Expertise

For most companies, adherence to any number of regulations and industry standards is a requirement for doing business in a global market. We have a dedicated IT compliance team on staff. Plus, you can leverage our audit-ready facilities and compliant cloud infrastructure to ensure the security and availability of your applications and data — and help meet your company's IT compliance requirements.
